
FEDS 201

January, 2018

On January 5th, the FEDS met up to watch the live broadcast of the [FIRST Kickoff](#) event. This season's game was released, and students must build a robot that fits the criteria of the theme Power Up. In the event, video game characters (robots) are controlled by students that must work lift, climb, and work together with alli-ances to defeat the boss.

The FEDS discuss designs and tactics for the season's event: Power Up

The FEDS meet with candidate,
Mallory McMorrow.

As part of our team's outreach efforts to expand access to STEM, a few FEDS met with Mallory McMorrow, candidate for State Senate, District 13, to advocate for continued state support for programs like FIRST robotics in MI schools. The team is honored to have met her and listened to her speak.
