

# Graduate Certificate of Education (Special Education: Complex Communication Needs)

**It was amazing to hear a child ask, "Can we write more?"**

I was very fortunate to complete the first Graduate Certificate of Special Education: Complex Communication Needs course offered in Australia at Edith Cowan University (ECU). It was a delight to work with a group of passionate educators and learn more about how to support people with complex communication needs. The course expanded my skills and I absolutely love sharing the knowledge and resources I've come across with my colleagues, other educators and people in the community. I was able to apply the literacy unit of the course to my clinical practice when I delivered a holiday program on shared reading and writing without standards. It was amazing to hear a child ask, "Can we write more?"
