

Present an

ADULT SIBLING FORUM

Thursday 27th October 2016

9.30am - 1.00pm / 9.15am registration for 9.30am start
At DDWA, City West Lotteries House, 2 Delhi St West Perth

This forum is for both adult siblings of people with disability
AND disability (inc mental health) service providers

Siblings usually have the longest relationship of any with a person living with disability. While most share a loving relationship, there can also be **challenges**.

Support for siblings is important for their own wellbeing and for the **benefits** that a strong sibling relationship has for the person with disability.

Hosted by **DDWA** and facilitated by Kate Strohm, Director of **Siblings Australia**, this forum **aims to:**

- Create **connections** for adult siblings.
- **Assist** disability service providers, researchers and policy makers to better understand the **needs** of siblings AND increase the **capacity** of the disability sector and others to engage with and support siblings.
- Understand the role of siblings within the changing disability landscape and the **National Disability Insurance Scheme (NDIS)**.
- Develop an understanding of the **legal aspects** of safeguarding the role of siblings in the future, including guardianship, administration orders, trusts and powers of attorney.

To register your attendance visit

<https://www.trybooking.com/217314>
