

Challenging Behaviour

A WORKSHOP FOR FAMILIES

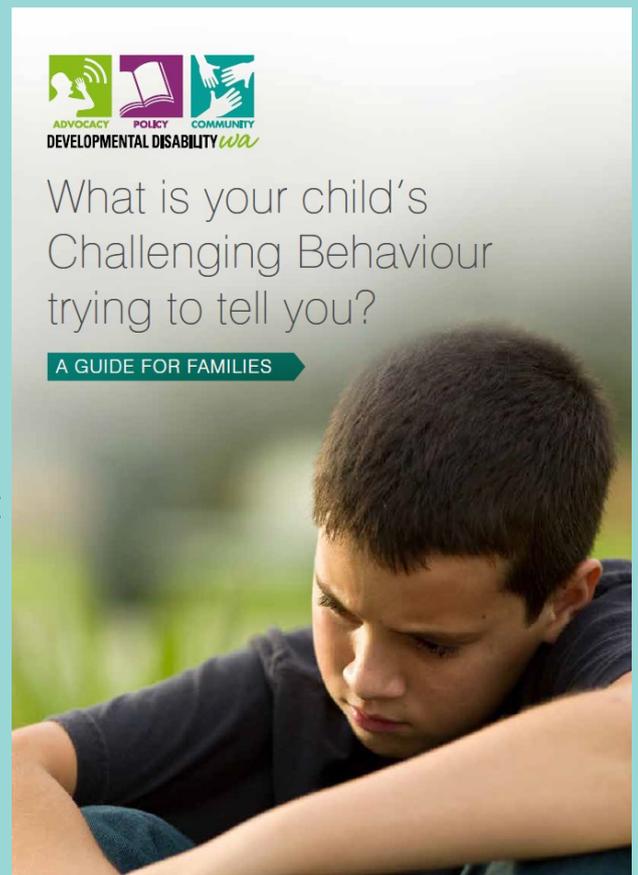

The Side by Side team from Developmental Disability WA are pleased to invite parents and family members to come along to this workshop and explore:

- ✓ Common myths about challenging behaviour.
- ✓ Why people behave in challenging ways.
- ✓ What is Positive Behaviour Support.
- ✓ Understanding each other (when challenging behaviour is in the way).
- ✓ What effective behaviour support plans look like.

This interactive workshop is being presented by Jaquie Mills and Bron Pike who have been working and living with challenging behaviour for many years and will share what they have learned so far about the ways of understanding and thinking about behaviour which are most likely to have lasting results. **Attendees will receive a FREE COPY of 'What is your child's Challenging Behaviour trying to tell you'.**

**9.30AM—2.30PM FRIDAY 10 MARCH 2017
ALBANY**

About the presenters:

Jaquie Mills— is the parent of four children, two of whom have a disability. Her eldest son has complex disabilities and behaviours which can be seen as very challenging.

A former high school teacher, for many years Jacquie was one of the many parents around the country who are unable to work due to the support needs of their children with challenging behaviours. Her search for a good life for her son has led to her exploring a number of other roles including Chair of the Positive Behaviour Framework Guiding Committee (hosted by the Disability Services Commission) and in 2013 was developer of the very well received 'Is There a Better Way' training, which has been delivered around the state and was designed to help other families experiencing challenging behaviour.

Bronwyn Pike — Bronwyn has worked for over 20 years within a variety of human services with her focus on supporting individuals and families to plan, develop and self-direct their supports. Her current role as Side by Side Coordinator at Developmental Disability WA has seen her working closely with families to co-design a family partnership model of support specifically targeted towards families who are living with challenging behavior.
