

# Congratulations

## ELK POINT

On Your 100 Years of Progress

### One of the First REA CO-OPS in South Dakota (1937-1959)

We are proud that, in the last 22 years, REA has played such a significant part in the development and expansion of the community. We built the first 100 miles of REA rural power lines in the state of South Dakota, a mark of distinction for our co-op; we have been pioneer distributors of electric service to our rural area. Our aim is to give prompt, efficient and courteous service.

**"OWNED BY THOSE WE SERVE"**

**UNION COUNTY ELECTRIC COOPERATIVE, INC.**
