RISK MANAGEMENT SERVICES

ENVIRONMENTAL HEALTH & SAFETY

## Don't Learn Safety by Accident

## Call LRMS Today!

## Safety

Lonquist Risk Management Services works with your project teams to improve site safety, reduce risk, and eliminate workplace incidents through tailored jobsite safety training. We provide site compliance audits to identify risk and implement mitigation plans. We also review, develop, and implement proven programs to enhance project safety and reduce incidents.

- Customized Site Audits
- Safety Meetings / Orientation
- Emergency Response
- Job Safety Analysis
- Safety Program Evaluation/Development
- OSHA Compliance Assistance (Inspections/Mitigations)
- On-site Safety Professionals
- Environmental Professionals
- Drug Testing

## Training

Lonquist Risk Management Services provides professional training tailored to your specific operations, helping to reduce and eliminate exposures. We provide safety training in Oil & Gas, Industrial, and Commercial Construction. All training is offered in English and Spanish at the Lonquist Risk Management facility, or at the Client location.

- OSHA 10 & 30 Hour (Construction/General Industries)
- First Aid/CPR/AED
- Qualified Rigger / Signal Person
- IADC Rig Pass: Safe Land / Safe Gulf
