<tr>
<th>Problem Statement</th>
<th>Goal Statement: 300 small children of 100 families in four villages in the Western Highlands of Guatemala will be able to enjoy better health through a Health and Hygiene Program, and improved nutrition and 12 months of food security per year through a family garden and nutrition program, leading to improved growth and development, better school attendance and performance—leading to an increase in their ability to develop and prosper as adults, and also increases the ability of adults to lead the productive, meaningful, prosperous lives they need to leave the cycle of poverty and contribute to the development of their communities.</th>
