

# PurEdge Degreaser and Rust Inhibitor

## PUREDGE DELIVERS UNPARALLELED CLEANING STRENGTH IN A PURELY SAFE SOLUTION

### INTRODUCING PUREDGE: A CLEANING SOLUTION THAT CAN ACTUALLY SAVE YOU MONEY

PurEdge Degreaser and Rust Inhibitor is an aqueous cleaner specially formulated to deliver maximum cleaning power without any of the safety, environmental or use problems associated with other products, even those claiming to be 'green'.

- Degreasing and rust inhibition in a single step
- Unequalled safety profile means reduced worker risk and liability
- All-natural ingredients means no special handling and disposal requirements or environmental liability

### ONE-STEP INDUSTRIAL STRENGTH DEGREASING AND RUST INHIBITION TOGETHER...

#### *Unique Encapsulating Action cuts through oil, grease and dirt*

The PurEdge solution attacks oil, grease, and dirt by **prying them off of the substrate** and encapsulating the particles, dragging them away. In an ultrasonic or immersion tank, this Encapsulating Action **keeps the solution cleaner longer** by dragging the particles to the bottom of the tank, thereby extending solution life.

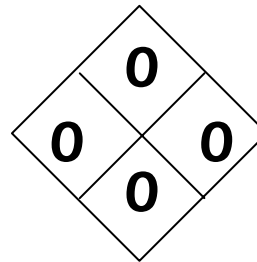

#### *Protects against rust*

Additionally, PurEdge **protects metal parts against rust in a single step**. As the cleaned part dries, PurEdge forms an invisible microscopic barrier that prevents corrosion and enhances lubrication. This protective barrier can even be over-painted with latex paint without any further treatment.

### ...IN A "NO COMPROMISES" SAFE SOLUTION

With PurEdge, you don't need to put your workers or the environment at risk to get the job done right. You no longer need to compromise one for the other.

PurEdge is made entirely of non-toxic, non-hazardous ingredients and is phosphate-free.

#### Hazard Rating (HMIS)

Health = 0  
Fire = 0  
Reactivity = 0  
Special = 0

In fact, PurEdge has absolutely NO:

- VOCs
- glycol ethers
- odor or fragrances
- petroleum distillates
- known or suspected carcinogens
- solvents
- terpenes
- ammonias
- SARA 313 substances
- Clean Air Act Sec 112 substances

Remember, even a slight hazard is still a hazard to your employees.

PurEdge **rates 0's on all HMIS and NFPA categories, making it the safest cleaning option.**

And because PurEdge is **made entirely from FDA approved food-grade additives**, it has **no special handling and disposal requirements** beyond your standard waste water treatment methods.
