

2013-14 Discounts

Effective July 1, 2013

Spring Wheat

Moisture discounts

- Bushels will be shrunk at 1.5% per point of moisture over 13.5%. If moisture is over 16% it may be subject to rejection

Drying Charges

- \$0.05 per point per bushel/ over 13.5% MOISTURE

Test Weight

- Discount \$0.02 per Bushel for each 1/2 pound test weight below 58 pounds to 56 pounds. Discount \$0.03 below 56 pounds and subject to rejection if below 50 pounds

Protein Scale

- Minimum of 14% protein anything HIGHER OR LOWER is subject to market scales

There will be no open storage on Spring Wheat

- Price later contract will be the only option unless sold at time of dumping the grain
- Price later contract will be \$0.04 per month

Price Later Program

Once any grain is put into price later program it cannot be reverted to a grain bank, open storage or a contract. The only thing that can and may be done BY STATE LAW is to price the grain. If you have any questions on this matter please contact Rod or Travis.

Price Later contracts will be offered as storage allows

Contracts

Contracts available for Corn, Soybeans and Spring Wheat

- HTA contracts have a \$0.05 fee attached at time the HTA is made. To roll your HTA contracts is \$0.02. You may only roll within that crop year.
- Cash contracts and futures contracts will also be offered
- Spring Wheat may only be sold or put on a price later contract. If put on the PLP the wheat must be priced by the following September.

PATRONAGE

Our age of equity payout is 72.
Please give Pam a call if you are of that age or approaching that age and we will get a request started. If you have parents that are deceased, please check to make sure their equity was paid out at time of death.
