Interconnection with Carle Place Water District

Project Period
2006-2007

Project Cost
$160,000

Westbury Water District
Westbury, NY

D&B Project Manager: William D. Merklin, P.E.

D&B Project Responsibilities

The Westbury Water District and Carle Place Water District agreed to co-fund the installation of two interconnection vaults along the border of the two Districts. The project included valves and meters inside the vaults as well as the necessary offset piping to connect to the existing distribution system in each District.

The work included: Preparation of preliminary cost for construction; assistance with producing an agreement with the Carle Place Water District, complete final design, drawings, specifications and bid documents; and bidding and construction services with part-time inspection.

D&B prepared all the necessary reports and applications for approval of the Nassau County Department of Health.
