

COURSE INFO. DOCUMENT by: James Drogan
Subject: TMGT 7300 Welcome and Course Objectives

This course focuses on the strategic principles necessary for the successful management of motor freight , ocean,railroad, and intermodal transportation firms.

The purpose of this course is for you to develop skills in and knowledge of transportation management in the following areas:

1. Issues. Issues are essential points associated with the subject that need to be discussed , understood and analyzed, and resolved.
2. Players (i.e., companies, firms, associations, regulatory authorities) and their roles.
3. Essential transportation management processes .
4. Shipment and information flows
5. Infrastructure and equipment.

You should be aiming to develop breadth of skill - about transportation modes , about the global marketplace and its myriad of cultures, about the strategic issues to which transportation must respond .

At the conclusion of this course you should have skills and knowledge sufficient to discuss these topics at a high level with other interested parties (e.g., executives in transportation management firms). The intent of the discussion is for the other party to see you as someone who can make valuable contributions to the management of the transportation firms of today and the future.

Transportation and its management is a field undergoing significant , rapid change. The course will be contemporary.

Subject: TMGT 7300 Is Distance Learning Right for You?

Distance learning is dramatically different from other learning experiences such as the classroom or self-study texts.

You really ought to be sure that distance learning is right for you.

To that end I would ask you to go to SUNY Learning Network - Are you ready?, read and think about the three different perspectives presented there, then draw your own conclusions as to what is right for you.

Please contact the instructor (see TMGT 7300 Contact Information) if you have any questions.

Subject: TMGT 7200 Student Responsibilities

Registration Versus Access

The fact that you are "here" does not necessarily mean that you are officially registered for this course through the Maritime Registrar. Through SLN you secure a password that gives you access to enter this on-line classroom. You can do this without registering for the course. However, if you have not registered and paid tuition through Maritime, you will be blocked from the course, and more importantly, you will not get credit for the course.

If you are not sure that you are registered for this course, check now! How do you do that? YOU MUST CONTACT THE MARITIME REGISTRAR DIRECTLY.

Ms. Catherine Jimenez
(718) 409-6533
cjimenez@sunymaritime.edu

You will need to have your student ID, along with the course code and title when you speak to the Registrar to confirm your registration.

If you know you have completed the official Maritime registration and payment process you can proceed with reading the rest of the Course Information documents.

Academic Calendar

There are a number of dates on the Academic Calendar that are critical to you. For example, one of these dates is Last Day to Add a Course or Change a Section.

The student is responsible for reading and understanding the contents of the Academic Calendar as they may affect him or her. The current Academic Calendar may be found on the Maritime web site. The student's failure to be aware and adhere to key dates shall not generate any responsibilities on the faculty or staff of Maritime College to correct for the student's oversight.

Contact Details

The student, when enrolled at Maritime, enters into an obligation to keep Maritime informed of any changes to the student's contact details (i.e., mailing address, telephone number, e-mail address).

Maritime E-Mail

All students will have and regularly check their Maritime e-mail. Important messages that directly affect the student are sent to Maritime e-mail addresses. Normally, the student will receive a Maritime e-mail address shortly after receiving a student ID and PIN. The student is responsible for assuring that their Maritime e-mail address has been established.

COURSE INFO. DOCUMENT by: James Drogan
Subject: TMGT 7300 Approach

Learning in this course is in the form of a moderated on-line discussion and a team project. All students are expected to participate. The schedule can be found in the Course Schedule and may be adjusted by your interest and knowledge as well as by current developments in the field. Readings are assigned. You are expected to have completed the readings and to be prepared to discuss the topics.

COURSE INFO. DOCUMENT by: James Drogan
Subject: TMGT 7300 Grading

The basis for grading is your knowledge of and ability to discuss the course material.

This is demonstrated and judged on the basis of the quality of your work on the course project and the quality (and to a lesser extent, quantity) of your participation in on-line discussions.

You will be graded on the basis of your demonstrated ability to single out key issues, think critically about them, and express cogent and complete fact-based arguments emphasizing analysis, conclusion and recommendation.

Please see Some Further Words Regarding Communication for additional advice on communication.

Please see grading and grade point average on the Maritime College website.

Basis for Grading

Grading is done on the basis of:

1. On-line Discussions: 70 maximum points (10 topics x 7 points per topic)
2. Written Assignments: 28 maximum points (two at 7 and 21 points)
3. Final Written Report on Class Project: 56 maximum points
4. Team Participation on Class Project: 12 maximum points

Maximum points that one can attain in the course is 166. The actual points attained will be divided by 166 and the resulting percentage translated into a letter grade according to the following table.

%	GPA	Grade
1.000	4.0	A
0.930	4.0	A
0.900	3.7	A-
0.871	3.3	B+
0.830	3.0	B
0.800	2.7	B-
0.771	2.3	C+
0.730	2.0	C
0.700	1.7	C-
0.000	0	F

For example:

1. 93 percent gives a letter grade of A.
2. 78 percent gives a letter grade of C+.

The mathematics guides me in the assignment of the final grade . What this means is that the final grade I assign may be different from the mathematical grade . In assigning the final grade I take into account your consideration , respect, and encouragement of others ; your desire for learning and discipline in completing the assignments ; your ability to bring relevant issues to the attention of the class.

On-Line Discussions

Your participation in discussions is the most significant component of your final grade .

Strive for high-quality discussions .

Quality discussions of the issues raised by all of us in the context of this course represent the critical success factor for learning. You should not wait for me to start a discussion. If you have something you think is important that needs to be discussed, start the discussion.

From my point of view discussion quality is critical because it is , in my experience, the basis for quality decisions and actions.

Do a good job of maintaining quality in the discussions. Lead by example. Use good grammar. Be considerate of others. Encourage others to participate.

Your contributions in the discussions should be thoughtfully developed and carefully worded .

They should address issues and/or concepts you find particularly important.

I will use the following criteria to evaluate your contribution to the discussions :

1. Relevance - your contribution is relevant to the material in the unit of study .
2. Importance - your contribution addresses a significant issue in the module .
3. Thought-provoking - your contribution requires high-level thought and is not a simple question or answer.

4. Originality - your contribution should not be essentially the same as that of another student.

What is a low quality contribution? A low quality contribution does not teach us anything, or contribute anything positive or substantial to the discussion. Examples of low quality contribution: any contribution which is biased, prejudicial, off topic, or is unsubstantiated; any contribution which is carelessly phrased, poorly thought-out, grammatically incorrect or confusing; any response which is disrespectful of another student or any other person, etc.

What is a high quality contribution? A high quality contribution teaches us something, or adds something positive and/or substantial to the discussion. It contains information from the textbook or another valid source, or applies a concept from the text or a legitimate website in a meaningful way, or facilitates understanding of the course material. The best contributions not only introduce new ideas or knowledge, but help us relate it to what we are studying in the module.

I will evaluate the quality of your contributions to each class using a 0 - 4 scale (see the table below).

0	1	3	4
Little to no contribution to the discussion	Contribution indicates a minimum acceptable understanding of the material and/or willingness to become involved in the discussion.	Contribution shows a reasonable understanding of the material. The student is participating meaningfully in the discussion.	The contribution delivers significant insight into the topic, or opens a potentially significant new line of thinking regarding the topic.

The quantity of on-line discussions is assessed on the following basis :

0 No posts
1 Posted less than three times; began no major discussion threads
2 Posted three times; began no major discussion threads
3 Posted three times; began one major discussion thread

Discussion threads are a related set of discussions on a major issue associated with the discussion topic.

In the above screen shot from a prior course you can see the discussion topic is **TMGT 6500.2 Discussion of The Impact of the Customer Power Shift on Transportation** . This topic was posted by me. Underneath the discussion topic there are 18 discussion threads that were started. Ellis Younger started one, the first. Marlon Guillory started two, the fifth and the fourteenth.

A maximum of seven points (four from quality; three from quantity) are available for each discussion topic. A large number of posts per week for the sole purpose of getting additional points is not a good tactic. It should be obvious from looking at the two tables above that seven points is the maximum one can earn in a week. On the other hand, as mentioned earlier, the math is but a guideline. I will make the final assessment of your grade. Additional high-value posts have the potential of additionally demonstrating to me your competence in the material.

The class has 10 discussion topics. The maximum points available are 70. Assessments are done at the end of each topic. Your assessment will consist of a mark for quality (0, 1, 3, 4) and, possibly, a private comment I will make regarding your response. Sometimes your post will provoke a question on my part and I will, therefore, respond to your response. You should be getting feedback from me on all your posts on a regular basis.

Sometimes the assessment I give is None. This should be a signal to you that there is something about your response I do not understand. There will be a private comment to you that will ask you to clarify the response so that I may make an assessment.

There is an exception to this assessment. At times you may make a rather casual response much like the casual asides we use in conversations. This sort of a response is likely not to be assessed.

Discussions are the heart and soul of this course. I expect you to lead and/or participate in discussions.

This material on discussions is based on that developed by Prof. William Pelz of SUNY Herkimer Community College.

Written Assignments

There are two written assignments. The first is in module one and worth seven points; the second in module three and worth 21 points. These are evaluated on a basis similar to that used for discussion quality points.

Project

A Critique of Global Movement Management

Further details about the project, what's do when, the makeup of the project teams, and supporting material will be found in 13. Course Project: A Critique of Global Movement Management.

Project Report

The team grade for the final report will be assigned according to the following criteria

Points	Criteria
0	Project report not submitted.
40	Project report demonstrates an adequate understanding of the topics and issues; reasoning and clarity of communication is fair.
46	Project report demonstrates a good understanding of the topics and issues; reasoning and clarity of communications is acceptable; team members are candidates to be assigned to a team to further develop the approach to marketing management.
56	Project report demonstrates an excellent understanding of the topics and issues; reasoning and communications is clear and compelling; team members are candidates to be assigned lead a team to further develop the approach to marketing management.

Maximum points available on the project report are 56. I can assign a number of points other than those shown above.

The project report are to be submitted as Microsoft Word documents (.doc files) or in Rich Text Format

(.rtf files) through the SUNY Learning Network.

Team Participation

Your participation as a member of a team will be assessed your peers and by me . The basis for this will be the answer to the following question.

"Would you like to be on a team in the future with this person?"

Acceptable answers and associated points are:

Definitely (4)

Probably (3)

Probably Not (1)

Definitely Not (0)

At the end of the project I will give you a list of the members of the team in the following form :

	Definitely	Probably	Probably Not	Definitely Not
Name 1				
Name 2				
Name 3				
Name 4				

Your task is to place a "X" in the box indicating your assessment of your peers . It would be appropriate to not assess yourself.

I will prorate the points so that the maximum available points (in the sample above it would be 12) equates to 12.

Special Note: It is tempting, inasmuch as this may possibly be your last activity in this course , to treat it lightly. Resist the temptation.

One of the most important responsibilities you will have during your career is the assessment of the performance of others. This assessment not only reflects upon the person assessed , but also on you, the assessor.

Suppose, for example, you assessed a person as extremely capable, but made the assessment in a rather casual, off-handed, quick fashion. The person is then, based largely on your assessment, hired and subsequently found not to live up to expectations. Your assessment has put the person in a difficult position, he has performed poorly, his subsequent career is affected. You are also affected because your judgement is called into question.

Take the time to think about your teammates participation. Produce a fair assessment. Treat them as you would like to be treated.

Please note the following. If you do not provide an assessment of your teammates you will be given zero (0) points in this area.

COURSE INFO. DOCUMENT by: James Drogan

Subject: TMGT 7300 A Guide to the Modules

The heart of the course comprises modules 1-14.

Modules 1-15 are the core learning and discussion modules. You will find the reading, writing, and discussion assignments in the Overview, Objectives, and Assignments document in each of these modules. You will be spending most of your time in these modules. These core modules have the following structure:

- A. Module at a Glance; summarizes what the module is all about, provides information as to reading, writing, and on-line discussion assignments.
- B. Lecture Note: assigned reading not in the textbook.
- C. Written Assignment Area:
- D. Discussion Area: instructions for participating in discussion and the assigned discussion topic .
- E. Supplementary Material: unassigned, but relevant material.
- X. Talk with Professor: a place anyone can ask questions about the material in the module.
- Z. Question Area (bottom of Module Menu): questions asked in any section other than X will be found here.

The Culminating Activity module requests your feedback on the course .

COURSE INFO. DOCUMENT by: James Drogan

Subject: TMGT 7300 Some Further Words Regarding Communication

All communication, including the submission of assignments, will be through the SUNY Distance Learning network. Assignments should be submitted as file types .doc or .rtf.

I don't grade by the word. Stay on the point. Say what you have to say, then stop. I'm not interested in reading what you think I want to read. I'm interested in reading what you have to say and what you have to think.

1. Your written work should be a complete statement of the issue (the beginning), facts and discussion (the middle), and conclusions and recommendations (the end).
2. Avoid restating information from the course material. Analyze the information. Identify a coherent framework that puts the issue in perspective.
3. Do not spend effort on writing about that which is irrelevant to the issue.
4. Avoid generic terms. Be as specific as possible.
5. Be logical, develop consistent arguments.

6. Be creative. Creativity is the essence of effective strategic analysis.
7. Use your own words, not those of others.

*Points 4-8 are based on Peter McAliney's Business Policy 5100 Case Analysis Guidelines.
Baruch College*

It is important to be able quickly identify the core issue, reason about it in a logical and complete manner, and clearly state conclusions and recommendations. Content and clarity is important.

One communicates to gather information, participate in the discussion underlying thinking and decision, compel change during implementation, and contribute to the post-change activities of learning and insight.

This communication is based upon knowledge of:

1. The decisions that need to be made and why.
2. The manner of making these decisions and why.
3. The source of the data to support the decisions.

Communication must be useful and usable:

1. The grammar and syntax of the communication is easily understood.
2. The information communicated is relevant.
3. The medium of communication is acceptable.

Communication is, among other things, speaking, writing, personal appearance, appearance of documents, listening, and observing.

Communication arises from how one perceives and considers an opportunity. That is, it is affected by how one solves problems. The concepts of fact-based hypothesis-driven thinking come into play here.

*Adapted from James Drogan, A Point of View On Teaching Content and Communication,
September 21,2002*

Subject: How to Create Good Subject Lines in Your Posts

DOCUMENT by: William Pelz

Subject: The Two Cardinal Rules of Discussions

A "Cardinal Rule" is a rule that is so important that, if you break it, there are dire (...evil in great degree; dreadful; dismal; horrible; terrible) consequences. **If you do not follow the instructions on this page you will probably not pass this course!**

When you are participating in a discussion, each response you post will have **two fields** that you must complete correctly in order to get credit for your response: the **Subject field** and the **Comment field**.

Cardinal Rule #1: You must create a subject field that conveys the essence of your main point. You are required to create a "Subject" for your discussion posts that conveys the main point of your comment. It is **not enough** to use the topic, or just a "keyword" or "key phrase" as your subject - you must create a short (no more than about 10 words) summary of the main point you are making in your comment.

The goal here is to state the main idea of your comment in your subject.

Remember - you can't just mention the topic you are commenting on, you must summarize your main point. This requirement is intended to accomplish 2 goals:

1. It requires the author to think about and clearly state the main point of his/her comment. To do this, the author must have a clear understanding of the material, and this aids in learning and memory.
2. It provides the reader with advance information which is helpful in organizing and learning the content of the comment. The reader should be able to determine the essence of your comment just by reading your Subject.

For example, if you are presenting information on the overuse of drugs in the treatment of Attention Deficit Hyperactivity Disorders, your subject should be something like this:

Study shows that drugs are over prescribed for ADHD, or
Too many kids put on medication for ADHD, or
Doctors rely on drugs to treat ADHD, etc.

The following subjects are **not** acceptable:

ADHD, or

Drugs overused, or

This is a Shame, etc.

If you are responding to a post, you may not use "Re: {subject of the post you are responding to}"

For example: Re: To many kids put on medication for ADHD is NOT acceptable!

Here are a few more examples of **unacceptable** Subject Field entries.

(It is **never** necessary to use "response to", "RE", or **the name of the person you are responding to** in the subject field.)

Great Point
Your Comments
R2 Melinda
I don't know
U R Right...

Important note: - No matter how terrific your **comment** is (see below), if your **subject** isn't acceptable, your post will not count toward your discussion grade.

Cardinal Rule #2: Your comment must present relevant, new information.

Your job here is to provide **new** information which is appropriate to the issue being discussed. I have posted other documents in the Course Information area which detail this requirement, but, in brief, here are the major things I look for in your discussion comments:

1. Is your comment accurate?
2. Is it relevant to the issue under discussion?
3. Have you taught us anything new?
4. Have you added to the academic atmosphere of this course?

Important note - It is OK to respond with non-informative comments. In fact, sometimes it is a good idea to thank someone for their assistance or simply let them know that you agree with what they have said. But be aware that these posts will not be "counted." If your comment does not teach us something new and relevant about the topic under discussion, even though it may be a valuable comment for other reasons, it will not count toward your discussion grade.

Remember, discussions in this course are not "chat rooms". This is a college course, and each post should contribute to the academic authenticity of the course. If you waste the other students time with your post, I want them to let you know! If your time is wasted by another student's post, let the author know. I don't want rudeness, but I do want academic integrity. Feel free to refer students to this document as a "gentle reminder" of their responsibility.

Subject: Cut and Paste

I encourage you to do research, to find relevant articles on the internet or elsewhere and bring them to our attention. Using the internet to augment our knowledge of the subject matter is very powerful.

However, let me caution you to not simply cut and paste what you find without 1.) proper attribution of the source, and 2.) some words of your own as to why you think the material relevant to our discussions .

The first case smacks of trying to pass off the thoughts and words of others as your own . This can be considered plagiarism. Plagiarism will not be tolerated. See A Note on Integrity in Course Information for more on this.

If you can find it on the internet, I can find it on the internet.

In the second case I want to assess your thoughts and words, not those of others. I hope that this is what you would also want done.

When in doubt on any of what I have mentioned here or elsewhere, ask for clarification. I am not lenient when it comes to unethical behavior.

Subject: With respect to postings, treat people as you would have them treat you.

Seek to understand and appreciate the views of others. Constructive, repeat constructive, criticism, when warranted, is to be gently, repeat gently, placed. Constructive criticism embodies the notion of alternatives. It's not enough to point out errors and omissions, one must suggest what ought to be done.

It's useful to include here some principles of communications :

- The grammar and syntax of the messages being exchanged is easily understood
- The information communicated in the messages is relevant
- The medium of communication is acceptable
- There is a desire to communicate (i.e., to exchange value)

This list suggests there are a number of places whereby the communication can be terminated , willfully or not. The Law of Unintended Consequences applies here.

COURSE INFO. DOCUMENT by: James Drogan
Subject: TMGT 7300 Time Management

The business world will be at least as demanding of your time as are your teachers. Time is an unlimited resource, but you will not be able to give unlimited time to each of things you must, should and could do. Learn to manage so that the investment of your time maximizes the return you seek.

"Time is the coin of your life. It is the only coin you have, and only you can determine how it will be spent. Be careful lest you let other people spend it for you."

Carl Sandburg

Prioritize the tasks that face you into the must-dos, should-dos, and could-dos. Allocate your time in the same sequence. You can't be all things to all people all the time. You need to learn to say no in a fashion that makes people want to come back.

Consider the following list from one of the most highly respected business books:

1. Be Proactive
2. Begin with the End in Mind
3. Put First Things First
4. Think Win/Win
5. Seek First to Understand, Then to Be Understood
6. Synergize
7. Sharpen the Saw

Covey, S. R. The 7 Habits of Highly Effective People, Simon & Schuster, Inc.

I understand that this class is one of many demands on your time. My aim is for you to not spend more than 18 hours per week on the course. Some of you will, of course, spend less and others more.

Subject: TMGT 7300 A Note on Integrity

Please read the Maritime College Academic Integrity Policy at

<http://www.sunymaritime.edu/academics/Regulations/AcademicIntegrityPolicy.htm>. It is the student's responsibility to understand his or her rights and responsibilities under this policy.

Integrity is a core value upon which acceptable business behavior is based. Integrity is about honesty, keeping one's commitments, and consideration of the rights and needs of others. In short, can your business partners rely upon you?

The lack of integrity in the academic community means you may fail a course, in business you may be passed over for a promotion; in the academic community you may be placed on probation, in business you may be placed on an improvement program; in the academic community you may be expelled, in the business community you may lose a job; and finally, in the business world, you may be sent to jail.

For an eloquent statement on integrity I would like you to read the Letter to Students re Academic Integrity by Bill Taylor at http://www.baruch.cuny.edu/facultyhandbook/taylor_letter.htm.

You are expected to learn and practice the habits associated with high integrity. Do it now, do not defer or delay, or neglect it, for you will not pass this way again.

My experience is that it is fairly easy to establish a student's writing style and it is fairly evident when the student is submitting work that is not in accordance with this style. The Internet is a wonderful resource for determining whether plagiarism is taking place. I encourage you to use the network for research, but find your own words, express your own analysis, conclusions, and recommendations. Blatant plagiarism tends to result in zero points for the assignment. My advice is to not do it. If you found it on the Internet, I can find it on the Internet.

I trust that it is clear that Maritime College, the Department of Global Business and Transportation, and I will not tolerate unethical behavior and academic dishonesty.

Subject: TMGT 7300 My Expectations

1. That you will do your own work and find your own words except in those situations where there is a clear call for teamwork.
 2. That you and I will develop a relationship of mutual trust that is the basis for a high value learning experience. We should be willing to share any thoughts, concerns, constructive criticisms, ideas, etc. in a manner that respects the dignity and value of all parties.
 3. That all of us in class will discharge our individual responsibilities to teach and learn. If we don't, who will?
 4. That we make time to help others. If we don't, who are we?
 5. That you keep on schedule with the course requirements. I expect you to be spending about 18 hours a week on this course.
 6. That I keep on schedule with the course requirements.

Subject: TMGT 7300 Your Next Steps

The **Bulletin Board** is a discussion area for our class outside the context of a particular course module. Just as you have the opportunity to talk or chat with each other or with the instructor when taking a conventional classroom course, you should also have the opportunity to do the same in a web course. The Bulletin Board is available only to students enrolled in this class to post and/or read messages and respond. These can include questions or comments to other students and me about course material, assignments, readings, etc. It is also a place where you can go to socialize and have open discussion on subjects of your interests.

You will find the Bulletin Board in the Class Community section of the Course Map. I will be using this area to make announcements during the semester, so be sure to check it on a regular basis.

Meet Your Classmates is an area for you to introduce yourself to the class and where you can go to meet the others that are in this course. Your profile will help us get to know each other and begin to build a sense of class community, so please feel free to personalize your profile and add a link to your favorite web site, or attach a digital image of yourself.

You will find my profile by clicking the Meet Your Classmates link in the Class Community section of the Course Map. Check this area to meet the others in this course. Since profiles will be posted as people join the course for the first time, you may have to return to this area several times to see the latest entries.

As your next step, you should click on **Course Map** link and then, do the following:

1. Click on the **Bulletin Board** area. Post an item to start a discussion, or read other students' responses if there are any, and make a response.
2. Click on the **Meet Your Classmates** area and introduce yourself.

When you have completed those two tasks, you are ready to begin the first module of the course.
