CMS WorldLink™ Lite

For years, CMS GlobalSoft has created elite, enterprise-wide shipping systems and customized solutions for high volume, larger shippers across a variety of industries. We've now packaged more than two decades of shipping systems expertise into our new product, CMS WorldLink Lite, catering exclusively to the unique needs of small and medium shippers.

Unlike their larger counterparts, small and medium shippers have to be more resourceful with usually much less technology, time and budget. CMS WorldLink Lite now evens the playing field for small and medium shippers. Our newly-launched multi-carrier and highly customizable shipping system caters exclusively to the needs of businesses requiring an affordable shipping system that maximizes the time-to-market of their goods while reducing costs and increasing efficiencies.

Finally... a robust shipping system made just for small to medium sized shippers who need reliable, enterprise-wide capability without an enterprise-wide price point.

Benefits

Free Up Internal Resources

You no longer have to worry about programming, development, integration and constant carrier updates. Allow your staff to concentrate on advancing your business.

Carrier Compliance Management

There is a considerable amount of data across the carriers that need to be maintained—CMS WorldLink Lite is your one business stop for carrier compliance handling. With CMS WorldLink Lite, we handle all of that and conceal any complication(s) from the customer.

Extensive Customer Service

Forget long holds or confusing voice mail trees. We offer 24/7 customer support and immediate response to assist you with all aspects of your shipping system needs.

Increase Customer Satisfaction

Reduce customer inquiries by using carrier provided email notifications alerting your customers of various shipping events.

Increase Your Shipping Efficiencies

Automate business rules greatly reducing shipping errors and ensuring compliance saving your company time and money.

Multi-Carrier Shipping Solution

Don't want to limit yourself to just one carrier? CMS WorldLink Lite allows you to add-on other carriers such as FedEx, USPS, DHL and many more!

Supported CMS WorldLink Carriers

FedEx®

DHL Express®

UPS™

Endicia™

USPS®

CMS WorldLink™ Lite

Cost Savings

In addition to being able to find the best rate(s) across all carriers, meeting your delivery commitment(s), CMS WorldLink Lite also allows you to avoid fees charged by carriers, such as for incorrect addresses.

Capture Shipping Productivity

BestWay

Employees can rate packages via deliver date across multiple carriers and multiple services. You can also balance delivery speed versus shipping cost.

ROI: This feature ensures that you can ship at the lowest cost while maintaining the desired level of service.

Email Notification

Launch shipping notification e-mails internally or to your customers based on different shipment statuses such as shipped, delivered or exception.

ROI: Lower your call volumes of shipment status inquiries, thus freeing up your internal resources as well as proactively letting your customers know the status of their shipment(s).

Address Verification

Verify address data on your shipments as well as the difference between residential and commercial addresses.

ROI: Eliminate or minimize costs on address correction fees.

Ups Ready™

CMS WorldLink Lite comes bundled with UPS Developer Kit at no additional cost! In addition to allowing you to rate and ship UPS, you can also benefit from their tracking, address verification and time in transit features.
