

# Want to get Medical Justice Membership for free?

If your practice accepts credit cards, there may be a way ...

Enough savings to pay for your Medical Justice® Membership and then some!

*Tired of throwing away money on charge card transactions fees?*

We were too. So, we did something about it for us and for you.

Medical Justice is continually looking for ways to add value for our members. Recently we were introduced to Charge Card Systems (CCS), a leading charge card processing company specializing in the healthcare arena. We switched and our rates have never been this low.

CCS saves clients on average about 20% off their previous processing fees by eliminating hidden fees and charges. That could be thousands of dollars in savings for a practice that processes a lot of credit cards.<sup>1</sup>

As a value-added benefit, Charge Card Systems developed a special program for Medical Justice Members. The program includes:

- **Free rate analysis**
- **Savings proposal to lower your charge card processing rates and fees**
- **Guaranteed 12 hour funding: money in the bank the next morning**

The lower rates alone compelled us to make the change. We have already seen substantial savings!

The implementation process is extremely easy.

1. **Fax one month of your current processing statement to CCS**
2. **CCS will analyze and call to discuss annualized savings**
3. **You decide if you wish to change**
4. **If so, CCS will walk you through the sign-up and convert your system.**
5. **You begin saving immediately and receiving your overnight funds.**

<sup>1</sup> Actual savings depend on volume & types of credit cards processed.

# Red Flag Compliance Solution

June 1, 2010 is the Federal Trade Commission's (FTC) deadline to enforce a provision of the "red flags" rule. This requires all physicians adopt and implement written plans for the identification, detection, and response to patterns, practices, or specific activities – known as "red flags" – that could indicate identity theft.

Failure to comply may subject a company to civil monetary penalties up to \$2,500 for each independent violation of the rule. Furthermore, a failure to comply will increase a company's exposure to negligence claims.

Medical Justice recently partnered with Manhattan-based Abrams, Fensterman, Fensterman, Eisman, Greenberg, Formato & Einiger, LPP, one of the nation's leading law firms specializing in healthcare, to develop a comprehensive, Red Flag Compliance Program.

## This easy-to-implement program includes:

- Step by step instructions to identify and protect covered accounts
- Easy to understand and complete fulfillment templates
- Response and notification requirements
- Procedures to manage passwords, computer hardware and firewalls
- Policies to address electronic health records (EHR)
- Instructions for annual reviews and updates

### PLUS

- Abram's Red Flag phone-hotline with 1 hour of FREE consultation

**Legal work of this caliber would normally cost over \$2,000.**

**For a limited time only, we are offering this comprehensive program for only \$60 when a physician joins Medical Justice.**
