UNDERSTANDING THE HARDSHIP SLIDING FEE SCALE

Summer recognizes that we are all governed to some extent by our personal economy. Unfortunately for many, one of the first areas to suffer is our healthcare. While cutting healthcare may reduce our budgets a little in the short term, in the long run it is very costly—we commonly develop chronic conditions and acute issues can worsen.

Summer wants you to take care of your health and to help you she developed a sliding fee scale. If you are under financial duress, you may choose to pay any amount between the lower sliding scale price listed on the fee schedule. If you feel you do not need the full hardship discount you may pay anywhere upwards of the base hardship fee. Unlike many medical practices, Summer does not require you provide documentation of your financial hardship. She trusts your integrity and knows you will only use the sliding fee scale if you need it. If a patient abuses the hardship sliding fee scale, Summer reserves the right to discontinue care.

CANCELLATION POLICY:

We require 24 hours notice for cancellation of an appointment. Call 541-326-8952 for any appointment cancelations or changes. **Do not cancel by email.**
All appointments cancelled with less than 24 hours notice or missed appointments *are subject to a $35.00 fee.*

For information about cancellations or refunds on programs, please see the program materials.

REINSTATEMENT CONSULTATION:

If a patient has not been seen by Summer for a consultation for one calendar year or is not currently enrolled in a SAVOR YOUR HEALTH program, the patient requires a reinstatement consultation. Our health is fluid and many aspects of it can change in a year. This reinstatement is to ensure Summer has the current health information necessary to optimize your treatment.

RETURNED CHECK FEE:

There is a $35 fee on all returned checks. This is to cover bank fees charged in the event of a returned check.

I have read the above PRICING AND FINANCIAL POLICY, understand, and hereby agree to the fee schedule and policy terms as stated.

INFORMED CONSENT for TREATMENT

I, hereby request and consent to the performance of acupuncture treatments and other procedures that are within the scope of practice of acupuncture on me (or for the patient named below, for whom I am legally responsible) by Summer Waters, LAc., NTP, CGP. I understand that methods of treatment may include, but are not limited to, acupuncture, Far Infra-Red (FIR) heat therapy, Cranial Electrotherapy Stimulation (CES), Chinese herbal medicine, nutritional supplements, and lifestyle and nutritional counseling. I understand that I have the right to refuse any or all treatments recommended to me by Summer Waters, LAc, NTP, CGP.

I have been informed that acupuncture is a generally safe method of treatment, but that it may have some side effects, including bruising, numbness or tingling near the needling sites that may last a few days, and dizziness or fainting. Bruising is a common side effect of cupping. Unusual risks of acupuncture include spontaneous miscarriage, nerve damage and organ puncture, including lung puncture (pneumothorax). Infection is another possible risk, although Summer Waters, LAc, NTP, CGP, uses sterile disposable needles and maintains a clean and safe environment. Burns and/or scarring are a potential risk of heated lamp therapy. I understand that while this document describes the major risks of treatment, other side effects and risks may occur.

I understand that the herbs may need to be prepared and the teas consumed according to the instructions provided orally and in writing. The herbs may have an unpleasant smell or taste. I will immediately notify Summer Waters, LAc, NTP, CGP, of any unanticipated or unpleasant effects associated with the consumption of the herbs. The herbs and nutritional supplements (which are from plant, animal and mineral sources) that have been recommended are traditionally considered safe in the practice of Chinese Medicine, although some may be toxic in large doses. I understand that some herbs may be inappropriate during pregnancy. I will notify Summer Waters, LAc, NTP, CGP, if I am pregnant, become pregnant, or am trying to become pregnant. Some possible side effects of taking herbs are nausea, gas, stomachache, vomiting, headache, diarrhea, rashes, hives, and tingling of the tongue.

I agree to keep Summer Waters, LAc, NTP, CGP, informed of any changes in my medical condition. I do not expect Summer Waters, LAc, NTP, CGP, to be able to anticipate and explain all possible risks and complications of treatment, and I wish to rely on Summer Waters, LAc, NTP, CGP, to exercise judgment during the course of treatment she thinks at the time, based upon the facts then known, is in my best interest. I acknowledge that my condition and the potential benefits of acupuncture have been discussed with me. I have had the likelihood of success explained to me, and I understand that results are not guaranteed, and that my participation in my own treatment and quantity of treatments may significantly influence the outcome and results.

By voluntarily signing below, I show that I have read, or have had read to me, the above consent to treatment, have been told about the risks and benefits of acupuncture and other procedures, and have had an opportunity to ask questions. I also acknowledge that other treatment options have been presented to me. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment.
