6 simple steps for a successful sketchcrawl:

1. print this map, fold it neatly, and stick it in your back pocket.
2. grab a bag and stuff it with your favorite art supplies and sketchbook.
3. walk, bike, drive, swim or "COTA" your way to the various locations.
4. draw anything and everything—people, buildings, plants, statues, whatever catches your eye.
5. when the day is over, scan or photograph your drawings and upload them to the columbus sketch crawl group for all to enjoy. it's easy and free. (www.flickr.com/groups/columbussketchcrawl/).
6. there really isn't a sixth step. we needed one more to complete the alliteration.
