*Apologies* Paul Varey, Mike Powers , Georgina Lloyd Watts , Lisa Allman

1. Jane reminded the group that this was to be the last meeting prior to September so that all could enjoy a month's Summer break free of meetings .
2. Discussion took place concerning the draft Mission Statement that had come from those attending the workshop on Neighbourhood Planning the previous week. This was felt to be quite good though one adjustment is required. It was agreed to further consider this prior to sharing with the residents of the village what the main issues seem to be for people and how it is proposed to explore them
3. The meeting considered the `hierarchy of issues ` again , this being the revised version and looked at what Mike P had done in identifying the `high scorers ` and possibly logically those the work should be focussing on first .
4. Discussion took place about the draft Programme Plan with its milestones set out. Some adjustments were suggested and Jane will do this and get the revised version to members to consider before signing off .
5. It was agreed to look at the `hierarchy` and pick out those issues which have a significant , middling or low relationship with land use /building development ....this will be considered at the next meeting and should inform further activity
6. Frank offered to look at funding issues .....concerning the likely spend on this N Plan activity ...he was to look at others' experiences
7. Frank offered to develop a template/ format for Jane to use in taking notes of these meetings and in ensuring consistency when setting out an agenda
