

## **PROJECT LAUNCH – 26<sup>TH</sup> JANUARY 2006**

**Ashton Hayes Primary School, Church Rd. 7.30 – 9pm**

**Free English ‘bubbly’ for adults, refreshments and apple pie for all**

Come and listen to four 10-minute talks and see our displays at the official project launch. Find out about the project while you sip free Chapel Down sparkling wine (one of the few positive spin offs of global warming!) and sample homemade apple pie from the Women’s Institute. You might even be interviewed by the Press. There’s lots to see and do and you’ll find out how you can save money by helping to reduce the carbon footprint of our community. We are now acknowledged as the first village in England to try to become carbon neutral.

Displays will be in the WI Hall – climate change information ■ village maps ■ wind and renewable energy technology ■ dedicate-a-tree ■ local food info ■ elephant grass energy crops ■ recycling ■ biofuels ■ solar panels ■ energy in the home ■ energy-efficient vehicles ■ insulation grants ■ composting ■ media coverage ■ project plans and 2006 survey programme ■ sign up for free eco-vehicle driving day (EU financed!)

**Supported by:** Ashton Hayes Parish Council ■ Ashton Hayes Primary School ■ The University of Chester ■ Chester City Council ■ Cheshire County Council ■ Energy Saving Trust and sponsored by local businesses.

For more information contact Garry Charnock, Project Coordinator on 01829 752714
