

Dear Mr. Blair

I am a year 5 pupil at Ashton Hayes Primary School. Ashton is the first village to become a Carbon Neutral village. What are you doing for the environment? I have a few suggestions:

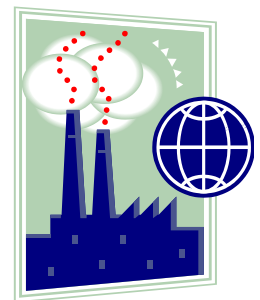

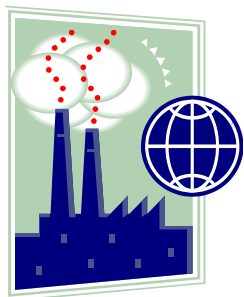

1. Plant more trees
2. Make cars run on alternative fuel
3. Make people cycle or walk more often it would stop loads of pollution & people would

get more exercise

4. Improve public transport especially in rural areas because it seems our bus service is going to be cut

5. Improve recycling

I am looking forward to your reply

Yours sincerely
Katie Nunnerley
