

At Providence Tarzana Medical Center, we reached a settlement with annual raises for all full & part time employees!

OUR TENTATIVE AGREEMENT INCLUDES:

- ✓ 2% across-the-board annual wage increase for every full & part time employee for the next three years.
- ✓ Continuation of our ban on subcontracting.
- ✓ Increased protections if the hospital is ever sold.
- ✓ An improved retirement plan with increased contributions from the employer.

“After SEIU agreed to a wage freeze for hundreds of its members at Tarzana and gave up on their subcontracting ban, we knew we had to stick together to make sure NUHW members got a better deal.

By showing Providence we were willing to stand up for ourselves, we won annual raises for every full time and part time worker and kept our ban on subcontracting in place.

That’s exactly why we joined NUHW -- to belong to a union willing to fight and **win.**”

Julia Sidrow-Thompson,
Monitor Tech,
Providence Tarzana Medical Center

We’re glad we have a union that stands up for members instead of lying down for management.
