

National Labor Relations Board issues complaint against MHP

After months of investigations of the charges filed by NUHW against MHP, the NLRB has decided to take our charges to a hearing and make MHP responsible for:

- Making unilateral changes in working conditions (specifically the Transfer Work Agreement) that forced our coworkers to accept employment at the Mercy campus and forced our members to be laid off in the mammogram department.
- Refusing to provide NUHW with requested information necessary for bargaining
- Refusing to meet with NUHW to bargain our contract

What this means for our NUHW members:

- Restoration of jobs back to the NUHW bargaining unit at Hackley for workers who were forced to accept jobs into SEIU represented position at the Mercy campus.
- Full restorations and benefits for workers who were laid off.
