Tips for a Successful Project
The Students Perspective
Overview

1. A different type of class
2. Defining Roles
3. Time Management
4. communication
5. Initial tasks
6. Documentation
A Different Type of Class

- Nebulous interpretable expectations
- Team work
- Individual specialization and responsibility
- Deliverables, do we have everything?
Defining Roles

- Project Manager
- Build Master
- Developer Lead
- Test Lead

Communication
Time Management

- 4 Milestones
- Don’t cram, work moderately and constantly
- Reading week
- Post milestone downtime
- Say what you’ll do, and do what you say
Overview

1. A different type of class
2. Defining Roles
3. Time Management
4. communication
5. Initial tasks
6. Documentation
Communication

- Honesty
- It’s nothing personal
- Ask for help
- Speak up, don’t shrug
- Documentation
Initial Tasks

- Infrastructure setup (build master)
  - hardware and policy
- Understand the existing project
- Define Jobs
- Define Communication channels
Documentation

• Make it useful

• Only do it **when** it’s useful

• You do not get marks for documentation, but you’ll lose marks without it

• It’s record keeping, and communication
