Palisades is old, unsafe and must be shut down. Located in Covert on the shore of beautiful Lake Michigan—OUR LAKE—with increased incident reports of unsafe plant conditions and hydraulic fracturing with risk of potential seismic activity in the area, it is a ticking time bomb. NOW is the time to organize to shut Palisades down and find safe energy alternatives BEFORE we can no longer turn back!

In event of a meltdown, South Haven, Holland, Grand Haven, Benton Harbor, Bloomingdale, Allegan, Kalamazoo, and surrounding cities are within the 50-mile radiation zone to experience effects!

Please plan to join other concerned citizens at one of 2 upcoming organizational meetings on Wednesday, February 27 from 6 – 8 PM at the Kalamazoo Public Library or Saturday, March 2 from 1 - 3 PM at the South Haven Public Library.

Learn about:

- Current situation and more,
- Brainstorm strategies toward shutdown and radioactive waste issues,
- Join with your neighbors to organize a new group working for a safe, sustainable energy future!

Sponsored by Beyond Nuclear (National) and Local Organizers.

**PLEASE INVITE YOUR FACEBOOK FRIENDS AND OTHERS—E-MAIL contacts, TOO!**

For more information, contact 269-692-2827 or 269-271-4342 for Kalamazoo meeting; 269-369-3993 for South Haven meeting.
