An evening with anti-nuclear activist and safe-energy advocate

Chris Williams

Nuclear Information and Resource Service board chair and former Director of Citizens Action Coalition of Indiana

Tuesday Evening
October 14, 2014
7:30 – 8:30 pm
BGSU
Business Administration Bldg.
Room 103
FREE & OPEN TO THE PUBLIC
Wanted: People who want to make a difference!

Chris Williams comes to Port Clinton and Bowling Green, Ohio straight from the People's Climate March. Over 400,000 hit the streets of New York on September 21st, a day that could make the history books. Chris is on a grassroots campaign for the upcoming battles against dirty, aging and uneconomic nuclear reactors of the 20th century that threaten to hold back deployment of clean energy technologies. First Energy has asked for a huge tax payer bailout for Davis-Besse. We say NO!

Chris Williams is a long time sustainable energy policy activist. He is currently organizer for the Vermont Citizens Action Network, a grassroots organization working to close the Vermont Yankee nuclear station and replace it with sustainable energy generation. Chris has a 25 year history working with public interest organizations, and 18 years as executive director for Citizens Action Coalition of Indiana a consumer and environmental advocacy organization. Chris has extensive experience in public education campaigns concerning public utility regulation, energy policy and environmental policy.

Come and find out why Davis-Besse and other nuclear plants are NOT the answer to climate change, why we need to shut them down immediately and what we can do to make that happen.

Sponsored by Beyond Nuclear & co-sponsors Toledo Coalition for Safe Energy, Don't Waste Michigan, EAG, And the Ohio Green Party, United in opposing Davis-Besse's 20-year license extension.

Beyond Nuclear ● 6930 Carroll Avenue Suite 400, Takoma Park, MD 20912 ● www.beyondnuclear.org For more info contact Kevin Kamps, Beyond Nuclear, (240) 462-3216, or kevin@beyondnuclear.org.
