CMS letter to MPSC August 18, 2006 provides reasons for selling Palisades (see pdf page 188 for Steam Generator Replacement discussion) The need to replace the Steam Generators was known in 2006 and scheduled for replacing by 2016. Exemptions now being sought in 2016 to avoid Inspections of Cold Leg Tubes permanently. Is Entergy looking to avoid having to plug additional tubes by avoiding Cold Leg Inspections?
