

Limitless Therapy Services

WHY WE EXIST:

Limitless Therapy Services was created by the co-founders out of a passion for the profession and the drive to improve the lives of the people of Las Vegas. The co-founders spent many years working in various settings, primarily in outpatient orthopedic clinics and resolved to create a company that would restore the individualized approach that excellent physical therapy requires. The hope is that Limitless Therapy Services becomes an active participant in the greater Las Vegas community by educating the public on what physical therapy is, by bringing a transformative care model to Las Vegas, and by participating in community service to give back to our community.

WHAT WE DO:

We are a private pay, mobile company bringing physical therapy services to your home, office, park or event. Many people find regular outpatient clinics to be a hassle due to location, crowded space, limited interaction with a licensed therapist, and frequent insurance company denials and delays. We want to take the stress out of therapy and hope that the convenience can help impact those that require physical therapy services and are either unable to attend, or unwilling to subject themselves to a normal outpatient setting. Our services start with a comprehensive evaluation with a subjective interview and a physical examination followed by the creation of an individualized plan of care which can include therapeutic exercise, manual therapy, manipulation, soft tissue mobilization, stretching and dry needling. Each session is always conducted under the immediate care of a licensed physical therapist and assessments are conducted frequently to assure your plan of care is adjusted according to your reaction to treatment and is always guided by your short term and long-term goals.

WHO WE ARE:

Robert R. Robb, PT, DPT
Co-founder, Limitless Therapy Services

Robert is an enthusiastic physical therapist who has been in the Las Vegas area for the past 12 years. He received his Bachelors degree in Kinesiology from the University of Nevada, Las Vegas (UNLV) in 2009 followed by his Doctor of Physical Therapy (DPT) degree from UNLV in 2013. Robert has mainly been employed in outpatient physical therapy but has extensive experience in acute therapy, acute rehab, and home therapy. He has specialized in Mckenzie, dry needling, as well as general orthopedics with patients ranging from 7 years old to 93 years old. He also has significant experience working with post surgical joint arthroplasty in acute, home, and outpatient physical therapy. Robert loves to work with people and focuses on treating the individual, and not the diagnosis. He got into physical therapy to make a difference in people's lives and to help keep them doing, or get them back to doing the things they love.

Beren M. Shah, PT, DPT
Co-founder, Limitless Therapy Services

Beren is a passionate physical therapist who was born and raised in southern California and moved to Las Vegas over 6 years ago. Beren received his Bachelors degree in Biology from the University of California, Los Angeles (UCLA) in 2009 followed by his Doctor of Physical Therapy (DPT) degree from the University of Nevada, Las Vegas (UNLV) in 2014. Beren has spent the last 3 years working full time in an outpatient physical therapy clinic seeing patients as young as 5 and as old as 95 working on a variety of physical ailments including back and neck pain, post-surgical orthopedic recovery, sports injury recovery, performance enhancement, balance and gait training. He also worked on weekends at several hospitals in town in the acute care and wound care settings helping prevent hospital acquired weakness, determining the safety of mobility for patients as well as addressing various wounds caused by pressure, trauma, infection, or surgery. Beren is passionate about the profession and is also involved with professional and patient advocacy locally in Carson City and nationally in Washington D.C. and is an active participant in both the Nevada Board of Physical Therapy as well as the Nevada Chapter of the American Physical Therapy Association.
