

Say hello to ReSound LiNX™

“Not only can it help you hear better, it can let you listen to music, sync movies, receive phone calls and even chat over FaceTime.”

– **Stuart Varney, FOX Business News**

“[ReSound LiNX helps...]people with impaired hearing to pump up the volume on their devices or to use them as headphones to stream phone calls, YouTube videos and music.”

– **Reuters**

“ReSound LiNX turns what is usually a mere practical technology into more of a lifestyle option for the hard of hearing by offering seamless connectivity with popular consumer products.”

– **Yahoo!**

“The LiNX will stream phone calls, FaceTime calls, music, navigation instructions, and text to speech from websites directly into the hearing aid.”

– **intheboombox.tv**

“Phone calls are streamed directly to the device, plus if it gets lost, the connected iPhone can be used to locate it.”
