A NOTE FROM OUR DIRECTOR

Muslims are no longer far away. They are here among us. Millions of Muslim immigrants, refugees, students, businessmen and tourists walk our streets and drive our roads. It is rare for anyone to go shopping without bumping into Muslims from Asia, the Middle East, Africa and Europe. How do we respond to this influx of Muslims to our cities? Many are threatened, others are complacent, and others are tolerant. We want to do what Jesus would do and reach out to them with the love of Christ and the gospel of life and salvation.

Reaching Muslims is certainly the toughest challenge facing the church of Jesus Christ today. In my personal ministry I have experienced both success and failure. Engaging Islam seminars draw lessons from over 40 years of personal ministry and the experiences of many missionaries. You will learn not only how Muslims think and feel and what they believe and practice, but also how to use your newly gained insights to effectively share the gospel with them.

Our approach is biblically based, compassionate, and passionate. Every Christian can play a part in drawing Muslims to the knowledge of our Savior and Lord.

Come and see for yourself !
