

GLIWA RESCUE

This has been a busy year for IW Rescue. We placed two litter mates in early Dec. and a 4 yr. old in May. Since then we have had three more! I guess it's either feast or famine.

We rescued Jack from a home in Oak Lawn where he was deemed the "puppy from Hell". He was only 13 weeks old at the time, so of course he was a terror. His new parents made the trip from Addison to pick him up, and he was already calmer by the time he got to his new home. To quote his new Mom, "We just love him to death". He is happier, too, because he has an 8 year old IW brother to show him the ropes, and a 2 year old Australian Shepard to run and play with.

In June, we picked up Abbey (now Annie) from a loving home in Lindenhurst. She was 8 months old at the time, but she was the only one in the house that was an alpha. The family loved her, but didn't know how to control her. Her new Mom is a former IW owner, and now Annie resides in Vernon Hills with 2 cats, and is having a great time.

In June we placed 4 yr. old Arya in the very capable hands of Pat in Wheeling. He has had IW's before, and in fact, Arya now has a 1 1/2 yr. old brother to play with. She took to her new Dad and big back yard immediately.

All in all, everything worked out, but I wish we weren't so busy!

The first pic is Jack, the second is Annie, and the th Arya & her new brother.
