

This church uses the **ChildSafe Safety Management System** as an expression of our concern for the safety of children and young people in our care.

A System That Works

ChildSafe is a safety management system. People with different levels of responsibility and accountability in our organisation can make use of the three key elements: standards, training and accountability tools. The key steps are:

1. People are **Appointed** to work with children and young people using a screening and appointment process.
2. Relevant **Training** is offered to assist people in the protection of Children from harm, and in safety (risk) management planning.
3. **Keeping Track** of our people and programs, and holding each other accountable for safe practices.
