Authentic Quality Furniture.

Antico Furniture has been building authentic quality furniture since 1996 that is both beautiful and practical to accommodate today's modern homes. Consider items such as magnificent flat screen media centers, functional home office solutions or perhaps a grand scale coffee table for the great room.

Old Wood or New Wood Construction.

What really sets Antico apart from other manufacturers is our ability to build all of our furniture from either reclaimed antique pine from old buildings or sustainably harvested new wood from regional forests. We like to keep it green. We like to give you choices. Also, all our furniture is 100% solid wood construction.

Standard and Custom Sizes or Complete Custom Building.

All our designs are available in standard and custom sizes. We also offer complete custom building services at very reasonable costs. Just send us your sketches or photos and measurements and we do the rest. Our process is easy, quick and uncomplicated.

Your Choice of Finish and Hardware.

You can choose from one of our many stains and painted finishes or specify your own. You can select no distress or distressed, select from the hardware we offer or you can supply your own.

Give your Customer What They Want. Choices and Quality.

Nobody gives you choices like these. Stop losing sales because you don't have the right size or finish. Give your customers what they want. Authentic personalized furnishings - all available to you from Antico Furniture.

Antico Furniture

Antico gives you a great selection of furniture made from old or new wood in lots of standard finishes and sizes. This page of products is just a sample of what you can expect from Antico. Many of our customers prefer our standard in-line designs and to limit custom work for simplicity.

This is just a sample of our work. We have many more designs to choose from.
