

Pickens West Virginia Maple Syrup Festival

First we would just like to thank you all for your interest in the Maple Syrup Festival. Attached you will find the application to the festival along with maps of available indoor spots. On the maps, you will find the spots numbered. On your application, you will see a spot where you can list your first 5 preferences of spots if you have any. These will be assigned on a first come first serve basis, meaning that the sooner you return your application with your deposit included then the better chance you will have of getting your choice spot. If you are a food vendor or wish to have an outdoor spot, you will be contacted to discuss your space.

We would like to also point out that in an effort to keep a variety of items in the festival to incorporate the interests of all attendees, we have the right to refuse any crafter if we feel we already have a surplus of that particular craft or business.

We will begin accepting applications and deposits January 1, 2017. Preference will be given to returning vendors until January 16, 2017 and after that spots will be filled on a first come first serve basis. Please note that our spots are for 2 days. Our festival is over a 2 day basis and it looks unfavorable for our festival if we have empty spaces when people come on Sunday. Saturday is always the largest day, but many people work and can't attend until Sunday and we have several that come after church on Sunday. Having said that, if you do not plan to attend both days then please do not send your application in. Vendors or crafters who leave early will not be invited back again unless we have given permission to pack up early due to weather or an unforeseen emergency. Again, thank you for your interest and we look forward to seeing you in March!

If you have received this application and no longer have interest in the festival, please let us know so we will no longer send you information each year. Thanks!
