Tideway Scullers School Cookie Policy

(Last updated 29 May 2018)

Information About Our Use of Cookies

This website uses cookies to distinguish you from other users of this website. This helps us to provide you with a good experience when you browse our website and also allows us to improve our site. By continuing to browse the site, you are agreeing to our use of cookies.

A cookie is a small file of letters and numbers that we store on your browser or the hard drive of your computer if you agree. Cookies contain information that is transferred to your computer's hard drive.

We use the following cookies provided by our content manager, Squarespace.com:

- **Strictly necessary cookies**. These are cookies that are required for the operation of this website. They include, for example, cookies that enable you to log into secure areas of our website, use a shopping cart or make use of e-billing services.

- **Analytical/performance cookies**. They allow us to recognise and count the number of visitors and to see how visitors move around our website when they are using it. This helps us to improve the way this website works, for example, by ensuring that users are finding what they are looking for easily.

- **Functionality cookies**. These are used to recognise you when you return to this website. This enables us to personalise our content for you, greet you by name and remember your preferences (for example, your choice of language or region).

- **Targeting cookies**. These cookies record your visit to our website, the pages you have visited and the links you have followed. We will use this information to make this website and the advertising displayed on it more relevant to your interests. We may also share this information with third parties for this purpose.

You can find more information about the individual cookies we use and the purposes for which we use them below which is information provided by Squarespace.com. We've also included Squarespace.com's own cookie policy for completeness:

About the cookies Squarespace uses

Last updated 29 May 2018

SECTIONS

We use cookies to help your site run effectively and provide the best experience for your visitors. In this guide, we'll describe the cookies we place on your visitors' *browser*s.

For more information about our use of cookies, including cookies we use on squarespace.com and our web and mobile apps, visit our Cookie Policy and Privacy Policy.

What are cookies?

Cookies are small pieces of data that websites store on a device. Cookies can improve your and your visitors' browsing experience because they help websites remember preferences and understand how people use different features.

Functional and Required Cookies

Squarespace uses some necessary cookies because they allow visitors to navigate and use key features on your site. These cookies vary from site to site depending on the features it uses. For example, Functional and Required Cookies help these features work:

- Customer accounts
- Shopping cart and checkout
- URL redirects

Cookie Name	Duration	Purpose
Crumb	Session	Prevents cross-site request forgery (CSRF). CSRF is an attack vector that tricks a *browser* into taking unwanted action in an application when someone's logged in.
RecentRedirect	30 minutes	Prevents *redirect* loops if a site has custom URL redirects. Redirect loops are bad for *SEO*.
CART	2 weeks	Shows when a visitor adds a product to their cart
hasCart	2 weeks	Tells Squarespace that the visitor has a cart

Locked	Session	Prevents the password-protected screen from displaying if a visitor enters the correct site-wide password.
SiteUserInfo	3 years	Identifies a visitor who logs into a [customer account](#)
SiteUserSecureAuthToken	3 years	Authenticates a visitor who logs into a customer account
Commerce-checkout-state	Session	Stores state of checkout while the visitor is completing their order in PayPal
squarespace-popup-overlay	Persistent	Prevents the [Promotional Pop-Up](#) from displaying if a visitor dismisses it
squarespace-announcement-bar	Persistent	Prevents the [Announcement Bar](#) from displaying if a visitor dismisses it

Analytics and Performance Cookies

We use Analytics and Performance cookies to collect information on your behalf about how visitors interact with your site. Storing these cookies is how we populate the data you find in [Squarespace Analytics](#), such as [traffic sources](#), [unique visitors](#), and [cart abandonment](#).

You can [disable Squarespace Analytics and Performance cookies](#) at any time.

Cookie Name	Duration	Purpose
ss_cid	2 years	Identifies unique visitors and tracks a visitor's sessions on a site
ss_cvr	2 years	Identifies unique visitors and tracks a visitor's sessions on a site

ss_cvisit	30 minutes	Identifies unique visitors and tracks a visitor's sessions on a site
ss_cvt	30 minutes	Identifies unique visitors and tracks a visitor's sessions on a site
ss_cpvisit	2 years	Identifies unique visitors and tracks a visitor's sessions on a site
ss_cookieAllowed	30 days	Remembers if a visitor agreed to placing Analytics cookies on their *browser* if a site is restricting the placement of cookies

Disable Analytics and Performance Cookies

To stop Squarespace from placing these cookies on visitors' *browser*s, you can disable Analytics and Performance cookies at any time:

1. In the *Home Menu*, click Settings, and then click Cookies & Visitor Data.
2. Check Disable Squarespace Analytics Cookies.
3. To also display a cookie banner, check Always, then check Enable Cookie Banner. (To learn more, visit Adding a cookie banner.)
4. Click Save.

You can also disable collecting these cookies from visitors until they accept your cookie policy in a cookie banner.

How disabling cookies changes what you see in Analytics

After you disable Analytics cookies, some data in Squarespace Analytics won't be a complete or accurate representation of visitor behavior.

Each *page*view event will count like it's from a new visitor each time. As a result, visits and unique visitors might appear much higher than normal. Each *page*view will count as its own visit, when in reality, one visitor might view multiple *page*s. So, it might look like you have more visitors than you actually have in panels like:

- Traffic Overview

- Sales Overview

Another effect of disabling cookies is that clicks, order conversion rates, and referrer attributions in panels like Traffic Sources and Form & Button Conversions won't be accurate. This is because disabling cookies prevents Analytics from connecting consecutive visitor events in the same session.

Additionally, if someone visited your site before you disabled cookies and returns when cookies are disabled, that person will count as a new visitor, since we'll ignore those cookies and attempt to remove them to follow your decision.

Check your cookies

You can see which cookies are active in your *browser*'s settings. For help, visit your *browser*'s documentation:

- Chrome
- Firefox
- Safari
- Internet Explorer

Squarespace.com's Cookie Policy

Effective Date: May 14, 2018

This Cookie Policy describes how Squarespace uses cookies and similar technologies to provide, customize, evaluate, improve, promote and protect our Services. Note that any capitalized terms not defined in this Cookie Policy have the meanings set forth in our **Terms of Service**. If you have any comments or questions about this Cookie Policy, feel free to contact us at privacy@squarespace.com.

Cookies. Cookies are small pieces of text sent to your browser when you visit a site. They serve a variety of functions, like enabling us to remember certain information you provide to us as you navigate between pages on the Services. We use cookies on the website and associated domains of www.squarespace.com and on Squarespace web and mobile applications for the following purposes:

- Authentication, Customization, Security and Other Functional Cookies. Cookies help us verify your Account and device and determine when you're logged in, so we can make it easier for you to access the Services and provide the

appropriate experiences and features. We also use cookies to help prevent fraudulent use of login credentials and to remember choices you've made on the Services, such as your language preference.

- Performance And Analytics. Cookies help us analyze how the Services are being accessed and used, and enable us to track performance of the Services. For example, we use cookies to determine if you viewed a page or opened an email. This helps us provide you with information that you find interesting.

- Third Parties. Third Party Services may use cookies to help you sign into their services from our Services. Any such third party cookie usage is governed by the policy of the third party placing the cookie.

- Squarespace Ads. We partner with third party publishers, advertising networks and service providers to manage our ads on other sites. Our third party partners may set cookies on your device or browser to gather information about your activities on the Services and other sites you visit, in order to provide you with Squarespace ads. For example, if you visit Squarespace and also use a social media platform, you may see a Squarespace ad in your social media newsfeed or timeline.

- Opting Out. You can set your browser to not accept cookies, but this may limit your ability to use the Services. We currently don't respond to DNT:1 signals from browsers visiting our Services. You can also opt out of receiving interest-based ads from certain ad networks here (or if located in the European Union, here).

Device Identifiers. We use device identifiers on Squarespace web and mobile applications to track, analyze and improve the performance of the Services and our ads.

Third Party Tags. We use and manage third party tags on the website and associated domains of www.squarespace.com and on Squarespace web and mobile applications. Third party tags may take the form of pixels or tracking snippets. We use pixels to learn how you interact with our site pages and emails, and this information helps us and our ad partners provide you with a more tailored experience. We use tracking snippets to capture data from your browser, make requests to a third party partner or set cookies on your device to store data. For example, if you see a Squarespace ad on a social media platform and choose to use Squarespace, we may use a tag to reduce the number of Squarespace ads you see on that platform. We use Google Tag

Manager to manage our third party tag usage. This may cause other tags to be activated which may, for their part, collect data and set cookies under certain circumstances. Google Tag Manager does not store this data.

Cookies on Your Sites. For information about the cookies and similar technologies used on Your Sites click here.

We may update this Cookie Policy from time to time. When we make changes, we'll update the "Effective Date" at the top of the Cookie Policy and post it on our sites. We encourage you to check back periodically to review this Cookie Policy for any changes since your last visit.

Please note that third parties (including, for example, advertising networks and providers of external services like web traffic analysis services) may also use cookies, over which we have no control. These cookies are likely to be analytical/performance cookies or targeting cookies.

You block cookies by activating the setting on your browser that allows you to refuse the setting of all or some cookies. However, if you use your browser settings to block all cookies (including essential cookies) you may not be able to access all or parts of our site.

Except for essential cookies, all cookies will expire after the periods referred to above.
