

Secure-Mount Post

A tested post and block mounting system, approved by industry professionals that works to your advantage with any TimberTech railing system!

- Independently tested to go over 500 pounds, and proved to 2-1/2 times design load.
- Meets ICC-ES™ AC 174 structural performance requirements of national building codes (March 1, 2007).
- Leveling Shims provided for deck or concrete installations.
- Salt Spray Tested over 1000 hrs. "Shore Coat" adds even more corrosion protection.
- Innovative, labor-saving Top Block is securely fastened and can be adjusted 6" in the height.
- Complete installation instructions for different applications included with each boxed product.
- Designed for wood, composite, vinyl or concrete decks.
- Optional Deck Mount Kit & Leveling Kit includes: surface and bottom plates, 4 leveling bolts, 12" mounting bolts (for 36" or 42" height) washers and nuts.

6" Adjustable
Top Block

Take advantage of the block design that offers a better, more reliable, and secure mounting platform for your fasteners!
