# AZEK Pavers®

## BREAKTHROUGH TECHNOLOGY

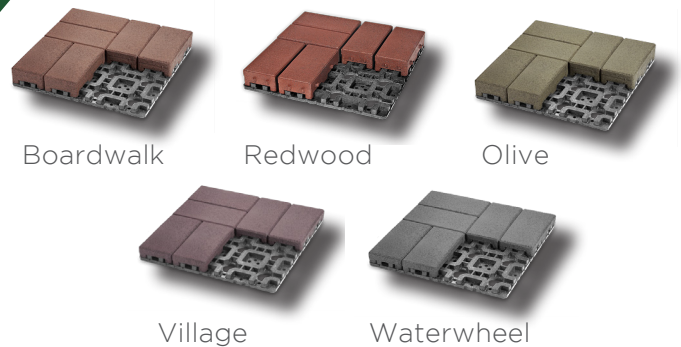

- AZEK Pavers are a breakthrough technology that are changing the construction world much like composite lumber did 20+ years ago.
- There are no competitors to date and AZEK Pavers are exclusively available through the AZEK channel today.

## FEATURES & BENEFITS

- Installs three times faster than traditional concrete pavers
- 1/3 the weight of concrete pavers
- Will not crack and do not need to be stained or sealed
- Cuts with traditional wood saws
- Offers both durability and great workability

## APPLICATIONS

- AZEK Landscape Pavers can be installed in all ground applications i.e. parking lots, driveways, patios, and sidewalks.
- AZEK Resurfacing Pavers can be installed over concrete slabs, over structurally sound decks and on flat roof applications.
- AZEK Pavers are ideal for commercial projects, DIY projects and all projects in between.

## CONVERTING CONTRACTORS

- AZEK Pavers will be primarily driven by contractor conversions.
- The product allows installers to make more profit per hour by reducing overhead and skilled labor, and has a low learning curve and investment need.
- It's easy to get started, easy to install, and will add increased per hour, incremental profit.
- Utilize the sales tools provided by AZEK to help you sell more AZEK Pavers
