

## GRILLED PEACH & BLUEBERRY PIE

- 1 supermarket ready pie crust, uncooked
- 2 ripe peaches, sliced in about 16 wedges each
- 1 small basket blueberries
- zest from 1 lemon (just the yellow outside)
- 1/4 cup sugar
- 3 tablespoon flour
- 1 egg, beaten

Combine peaches, blueberries, sugar, 1/2 the flour and lemon zest - mix well

Fold a large piece of aluminum foil in half and lay on work surface - large enough to fit under pie crust

Dust foil with remaining flour and lay pie crust on top

Place fruit mixture in middle of crust and fold sides around it - it will not cover the fruit, but will only come a couple of inches up the sides

Brush sides of dough with beaten egg

Lift and place foil with pie on grill preheated to medium - over indirect heat, or side of grill away from coals or gas burner.

Close lid and cook until dough is beautifully browned and fruit has softened

Serves 4
