

# When you restore communication, *you renew lives.*

November, 2018

Dear Friend of the Centers,

With your help we've been renewing lives at Sertoma Speech & Hearing Centers since 1978. Forty years of providing speech and hearing care to anyone who needed our help. *Only a nonprofit* could do this.

To continue this success, we will do the things we must do to ensure a bright future — and we are...

We have a smart Board of Directors. We run a lean operation. We continuously improve our clinical practices. We partner with the best suppliers of hearing aids and diagnostic technology. We communicate across our growing community of patients, patrons, and other stakeholders. And we do these things with energy and a great sense of responsibility.

*To renew lives this is what it takes.*

As I touched on at the top, renewing lives requires partners, partners like you. For instance, the demand for our professional services only grows. Your generosity is essential to help us respond to the increasing need for affordable speech therapy and hearing aids.

But to respond with the same level of care we've provided for 40 years, requires new investments. We're counting on you. With your continued financial support, we can grow to serve the increasing volume of people who need our professional care.

We need your help. Please give as generously as you can to Sertoma Speech & Hearing Centers this year. Consider a monthly or semi-annual donation to increase the impact of your donation.

Thank you for supporting our crucial work and helping us flourish in the future.

Michelle Morrison, Ed.D.  
Executive Director

PS When you use the enclosed 2019 Pocket Planner, you can be certain that your donations are hard at work every single day to renew lives.
