Author's Disclaimer:

Those quotes that are particularly distasteful to famous persons may contact the author/compiler for a withdrawal in subsequent issues, if they feel that it represents them personally. Not all quotes have the movie listed, especially when that person may be an unknown actor. Some quotes were edited just a tiny bit so that they may fit the format of a quote. All quotations are properly said to be "attributed" to the actor, for if they were listed with only the script writer- it would look pale and ordinary. However, all script-writers may be listed in subsequent printings – with the actor – if they wish. Sequels planned.

This book may not be reproduced, transmitted, or stored in whole or in part by any means, including graphic, electronic, or mechanical without the express written consent of the publisher except in the case of brief quotations embodied in critical articles and reviews.

Introduction

This book is a compilation of “wisdom-moments” from great (or obscure) movies by famous actors of the past and present. People such as Elizabeth Taylor, Cary Grant, John Wayne, etc.

Not only actors but also famous people of history like Queen Elizabeth. Under the category of “Revelations” unknown people are represented, proving that you don’t have to be rich and famous to have wisdom to impart. There are also adages, old sayings, proverbs, legends, sagas, and slang.

To be more accurate, the words which come out of a famous actor’s mouth is more than likely to be a product of the script writer. Thus the quotes from movies by famous actors may or may not represent his or her personal point of view. It is universally recognized though by writers – generally – that most every movie has to have a lesson, a message, or a particular lesson for the audience.

That wisdom is of two types: one is serious and the other is “wacky.” The latter being far more entertaining and thus may make us smile, laugh or otherwise catch our fancy. I was an orphan, so I did not have the advantage of being taught how to deal with life. I had to experiment myself to find out what is wise and what is folly. This is not the best way to learn and I experienced pain and embarrassment. I always wished I had some wise parents to explain things to me, like how to deal with women, the value of a virtuous, honest and righteous life. I also needed spiritual guidance, but I didn’t get it until late in my life. This is why Famous Quotations “Revelations” is offered. It gives all the things that I really needed when growing up. I hope it gives you the guidance and wisdom to grow up too.
