

Outrageously Dependable™

Part Number

IB-GC2-HD-UTL

Specifications	
Voltage	6
Ah	232
Reserve Capacity	122 @ 75 amps
Weight	30.5 kg
BCI Group	T105
Supply Unit	Each

Battery Dimensions (MM)			
Length	Width	Height	Total H
260	181	240	283

Features	
Heavy Duty	Workaholics are made with heavy duty connection terminals and thick plates to ensure they can handle extreme working conditions
High Performance	Multiple rib separators with additional ribs designed to give maximum cycling performance
Easy Access	Exclusive SpeedCap design allows easy opening of all three caps at once
Efficiency and Durability	Antinium alloy and low-antimony alloy grids resist corrosion and reduce the potential for overcharging and reduces water loss
Workaholic	Advanced Stabilizer Materials maximize initial capacity, peak capacity, capacity life and rechargeability

Workaholic Deep-cycle Batteries

An industrial Powerhouse!

Suitable Applications	
Golf Carts	Scissor Lifts
Floor Scrubbers	Motorhomes
<p>Suitable for all applications where the highest quality 6v batteries are required for maximum run time, discharge cycles and long service life.</p>	

DG Classification
Corrosive 8

UN Number	Package
2794	iii

WARRANTY - 1 YEAR FULL REPLACEMENT- DEEP CYCLE/ COMMERCIAL APPLICATION

Proudly distributed Australia wide by-
