

Outrageously Dependable™

Part Number

U3050HCS/H

Specifications	
Voltage	6
Ah	340
Reserve Capacity	790
Weight	40 kg
BCI Group	J 305
Supply Unit	Each

Battery Dimensions (MM)			
Length	Width	Height	Total H
302	181	345	380

Features	
Crystalock	The patented plate curing process designed to reduce paste breakdown
High Performance	Multiple rib seperators with additional ribs designed to give maximum cycling performance
Convenience	Handles for assisting in lifting and installing the batteries
Efficiency and Durability	Exclusive Antinium alloy and low-antimony alloy grids resist corrosion and reduce the potential for overcharging and reduces water loss
Strength and Long Life	Heavier, more robust terminals provide greater strength while Patented plate technology provides higher capacity and more cycles per battery

Workaholic Deep-cycle Batteries - An industrial Powerhouse!

Suitable Applications	
Golf Carts	Sisscor Lifts
Floor Scrubbers	Motorhomes
Suitable for all applications where the highest quality 6v batteries are required for maximum run time, discharge cycles and long service life.	

DG Classification
Corrosive 8

UN Number	Package
2794	iii

WARRANTY - 1 YEAR FULL REPLACEMENT- DEEP CYCLE/ COMMERCIAL APPLICATION

Proudly distributed Australia wide by-

1300 769 282
