

Outrageously Dependable™

Part Number

UB1TMX

Specifications	
Voltage	12
Ah	130
Reserve Capacity	210
Weight	27 kg
BCI Group	SCS225
Supply Unit	Each

Battery Dimensions (MM)			
Length	Width	Height	Total H
344	169	215	244

Features	
Chemistry	<i>Calcium / Calcium</i> Technology meets maintenance-free criteria under normal operating conditions
High Performance	PowerFrame positive grid ensures consistent quality and power
Easy Access	Batteries are maintenance-free but are accessible for situations like accidental overcharging or spillage
Efficiency and Durability	Negative Plate Paste Expander greatly increases heat resistance and reduces the potential for overcharging and reduces water loss
Improved Charging Ability	Sodium Sulfate Additive greatly improves charge acceptance which reduces charging times, heat build up and gassing

- Workaholic -
Proven Quality and Reliability

Suitable Applications	
Motorhomes	House Batteries
Floor Scrubbers	Camping
Trolling Motors	
Suitable for all uses where heavy-duty Deep Cycle batteries are required	

DG Classification
Corrosive 8

UN Number	Package
2794	iii

WARRANTY - 2 YEAR FULL REPLACEMENT / 1 YEAR COMMERCIAL APPLICATION

Proudly distributed Australia wide by-
