

Delkor is a premium quality calcium battery with a full range of starting, marine and deep cycle batteries.

Delkor boast world renowned quality!!!

Advantages of Delkor calcium batteries:

- Distributed worldwide, and are covered by an Australia wide warranty using a large dealer network.
- Minimal self-discharge; can sit for a long time without requiring to be recharged.
- Sealed maintenance free design, no more tedious topping up with distilled water.
- In built flame arrestor to prevent possibility of an explosion from an external spark.
- Inbuilt hydrometer for easily checking the state of charge, helpful if the battery is not getting regular use, e.g. antique cars, boats and caravans.
- Heat sealed cover to prevent leakage and contamination to the battery.
- Wrought lead calcium grids to reduce the gassing and resistance to overcharge and thermal runaway. (ideal batteries for taxi)
- Liquid gas separator which prevents electrolyte loss by collecting the vapour and returning it back into liquid into the battery.
- Premium products have a silver additive improving CCA and performing well in extreme heat.
- Reinforced polypropylene case for resistance to vibration and road shock damage.
- Large range of marine & deep cycle batteries all with dual terminal with stainless steel thread and wing nut.
 - Fold down handles for easy fitment.
 - Hot melt is used for locking the plates together inside the case improving the battery in vibration prone situations.
 - Delkor manufacture for a large range of big manufacturers such as AC Delco, Mitsubishi, Honda, Bosch, Daewoo and Hyundai.

The most popular sizes are:

Delkor Code	Size	CCA's	L	W	H
22FR/EFR/F-520	520 Holden/Ford	520	241	173	208
