Infusion 2.0 is a liquid solution of trace elements derived from Dead Sea salts. This sea solution may enhance the immune system of the plant providing a boost in energy and growth. When applied by itself or with fertilizers and/or micronutrient packages, these highly proportioned minerals are pro-active capable of re-energizing the plant for better health.

Contains
Chloride salts of Potassium ... 0.13%
Magnesium .......................... 0.001%
Derived from Sea Salts

Net Contents
2x2.5 Gal 275 Gal Other

Net Weight: 8.5 lbs per gallon

Directions for use:
Shake thoroughly.
One (1) gallon of Infusion 2.0 will treat five (5) acres; 25.6 ounces per acre. It is recommended to use a minimum of 10 gallons of solution per acre as a carrier. Infusion 2.0 can be applied at planting or post emergence or with fertilizer applications. Two applications per acre are recommended for best results.

MIXING INSTRUCTIONS:
(1) Fill spray tank to 50% capacity.
(2) Can add herbicide, if needed.
(3) Add Infusion 2.0.
(5) Fill remaining tank to 100% capacity.
(6) Mixture is ready for application.

Storage: Store product in location 45° F or above. Shelf life is three (3) years.
Conditions of Sale: The information contained on this label is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, crop conditions and other factors are beyond the control of the seller. Infusion 2.0 can be safely mixed with most pesticides and liquid fertilizers. However, it is best to perform a jar test for compatibility.
Warning: Some crops may be injured by application of Boron. Consult with Biovante if there is any question regarding use.
Caution: KEEP OUT OF REACH OF CHILDREN
