**FINALSAN™ Total Vegetation Killer**

Complete Control of Grasses, Weeds, Moss and Algae

FINALSAN™ Total Vegetation Killer can be applied around turf, ornamental and food crop areas including parks, playgrounds, golf, schools and areas with pesticide bans/concerns. FINALSAN also controls moss & algae on roofs, decks, walks and sidings. “Within minutes FINALSAN breaks down the waxy surfaces of leaf cells causing wilt and eventually cell death.”

**Active Ingredients:**
- Ammoniated Soap of Fatty Acids 22%

**Features & Benefits**
- Fast Acting - See Results in Hours
- Non-Selective Burn Down Activity
- Favorable Environmental Qualities
- Controls Moss and Algae
- Works in Cool & Warm Temperatures
- Synergizes Conventional Herbicides
- Next generation burn down for over-seeding preparation

**Use Rate**
- Mix 1 part Finalsan with 5 parts water (26 ounces to 1 gallon).
- Apply mixed solution at a rate of 2.5 - 7.5 gallons/1000 ft²
- Thorough coverage is extremely important.
- For spot treatment of individual weeds, apply mixed solution to the center of the plant to the point of run off.

**Packaging**
- 2.5 gallon jugs (2 per case)
- Pallets of 36 cases

**Controls or Suppresses Weeds Such As:**
- Annual bluegrass
- Chickweed
- Colonial bentgrass
- Corn spurry
- Creeping red fescue
- Groundsel
- Hard fescue
- Lamb's - quarter
- Large crabgrass
- Mouse-eared chickweed
- Mustards
- Perennial ryegrass
