

## **Old 1409**

by Connie Mason Brown

Hear that whistle blowing  
Coming down the track  
Now you know that little ol' train  
Is really coming back

We thought it could we knew it would  
Return to us someday.  
We finally found the last car made  
And claimed it right away.

Now it needs the TLC  
Just like a mother's care,  
To kiss and patch and make it well  
Work that we all can share.

So if you have some extra time,  
Come join our working crew.  
We love to have you join our group  
And see what you can do.

Get out your old striped overalls,  
And matching railroad cap,  
We'll supply all the tools  
And you supply the ZAP!

So let's keep it rolling  
Right past the Little Brown Church  
With Scott as Engineer  
I think the road is clear.
