

## Power Point Slide Shows about Supplemental Instruction

The following on-line slide shows provide a basic overview of the SI model. Users may want to use the shows with little changes or take elements from the shows and develop their own for use with administrators, faculty, staff, and students at their institution. Conducting a Google search or placing requests on email listserv discussion forums such as SInet (*described elsewhere on this web site*) can locate more samples to review.

*Several notes to users about viewing the Power Point slide shows.*

1. Power Point software must already be installed on the computer to view the files. A free Power Point viewer is available for free download, <http://office.microsoft.com/en-us/downloads/CD010798701033.aspx>
2. Sometimes the slide shows do not automatically advance to the next slide by pressing the space bar or the return key. It may be necessary to right-click the mouse and manually advance the slides.

### **For use with SI leaders:**

1. *Breaking the Dependency Cycle: Supplemental Instruction.* Slide show used during SI Leader Training at the University of Missouri-Kansas City (Amelia McDaniels) <http://umkc.edu/cad/si/sidocs/Breaking-the-Dependency-Cycle.ppt>

### **For use with administrators, faculty members, and staff:**

1. *SI: Structured Learning Communities.* Slide show that illustrates the connection between SI and learning communities. (David Arendale). <https://netfiles.umn.edu/users/arend011/www/SIstructuredcommunities.ppt>
2. *SI Overview.* Short slide show that provides a quick overview to SI. (David Arendale) <https://netfiles.umn.edu/users/arend011/www/TXSIoverview.ppt>
3. *Best Practices of Course-based Learning Assistance Programs.* Slide show that describes best practices among several national peer learning group models including SI. (David Arendale) <https://netfiles.umn.edu/users/arend011/www/CLAbestpractices.ppt>
4. *Uses of SI for Faculty Development.* Short slide show that illustrates some ideas for using SI as a part of an overall faculty development program. Slides are based on examples from several published articles. (David Arendale) <https://netfiles.umn.edu/users/arend011/www/facultydevelopmentSI97.ppt>
5. *Extended Overview of SI.* Slide show with an extended overview of SI for a community college audience in 2007. (David Arendale). <https://netfiles.umn.edu/users/arend011/www/PALoverviewInverHills.ppt>
6. *Internet-based SI.* Slide show that provides several case studies of SI use over the internet. (David Arendale). <https://netfiles.umn.edu/users/arend011/www/siinternet.ppt>
7. *Instructional Systems Design for SI at Angelo State University (TX)* (Sara Weertz) <http://www.umkc.edu/cad/si/sidocs/IC-2006-docs/Instructional%20Systems%20Design-Sara%20Weertz.ppt#5>
8. *Improving Retention through Peer Mentoring, Supplemental Instruction, and tutoring at University of North Carolina at Charlotte* (Catherine Blat and Patricia Tolley) <http://www.succeed.ufl.edu/products/NewMexico.ppt>
