Is your business in the green?

Climate Masters at Work™ can help you save money and cut emissions!

Who: Business and nonprofit leaders

What: 20 hour initial training followed by six months of followup sessions and individual consultations by sustainability experts, Good Company, on behalf of LCC Business Development Center. Take action by reducing your business’s carbon footprint in a class that can more than pay for itself in savings.

The training will provide:

- Practical strategies for saving money and reducing emissions through efficiency in facilities, packaging, materials selection, transportation and more
- Financing leads
- Keys to developing a greenhouse gas emissions inventory and action plan
- Individualized and peer-to-peer support for implementation
- Intern assistance from LCC Energy Management students
- Climate change basics
- Organizational change strategies
- Six months of followup with LCC’s Business Development Center

When and Where: Spring session: Tuesdays, 8-10am, April 7-June 9, followed by monthly trainings, tba

Cost: Only $250, plus a minimum of 25 hours split between implementation within your workplace and mentoring other businesses

Sponsored by:

- Meyer Fund for Sustainability in Education
- Eugene Water and Electric Board
- Environmental Protection Agency
- City of Eugene
- Eugene Chamber of Commerce
- Springfield Chamber of Commerce
- Good Company
- Oasis
- LCC Business Development Center

I looked forward to every class and appreciated all of the subjects covered. I felt that the course strengthened my sustainability knowledge, built confidence, and gave me direction. Thank you so much for the opportunity to participate.

—MICHAEL GOUGEIA, GOLDEN TEMPLE OF OREGON
