

In this book Hans Steiner's long-lasting experiences as outstanding academic teacher, clinician and researcher meet his great talent in creative writing to produce an unique book that I have read with continuously growing enthusiasm. It is written in a style that you would love to go on with reading even if you don't have the time to do it. I am very sure that this excellent book will help enormously to attract students and young colleagues to psychiatry and to the fascinating territory of our unconscious inner world.

I highly recommend this extraordinary book to students, psychiatrists, psychologists and other mental health professionals and to everybody else who wants to know more about the way our secret mind works.

Prof. Dr. med. Dipl.-Psych. Klaus Schmeck
Ordinarius für Kinder- und Jugendpsychiatrie
Kinder- und Jugendpsychiatrische Klinik
Universitäre Psychiatrische Kliniken (UPK) Basel
