

About Us

The directors of this program, Gilles and Liliane Desjardins, have a distinguished record of achievement which has earned them the respect of professionals in this field, as well as the gratitude of countless program participants whose renewal has brought joy and hope to their lives and the lives of those who love them.

As Certified Clinical Addiction Specialists and counselors since 1976, the Desjardins are renowned for their highly successful and innovative work and the Desjardins Unified Model of Treatment. They are co-founders of Pavillon Gilles Desjardins in Val David, Quebec, Canada as well as the co-founders of Pavillon International, a center for treatment of addictions in North Carolina.

As co-founders of HP Productions, a company specializing in education and transformational workshops, seminars and retreats, the Desjardins are proven leaders in the healing of emotions. They now reside in Austin, Texas where the workshops are held.

INNER JOURNEY

A POWERFUL 4-DAY PROGRAM

Of

Re-connection

Re-alignment

Re-invention

Renewal

HP PRODUCTIONS offers a 4-day program that is fully individualized and customized to each client's specific needs.

This program provides education as well as an assortment of practical tools to make positive changes. The Desjardins' vast experience in human behavior and relationships offers a major qualitative difference in ways to resolve issues. Their result-oriented coaching in coping strategies for successful living goes beyond therapy and helps individuals to tap into the essence of there being and their inner Wisdom.

WHO CAN BENEFIT AND HOW

- IF you have done a lot of therapy work and are currently challenged by some specific issue or problematic relationship that is depleting your energy and prevents you from functioning at your best, *this program will allow you to focus, gain a different perspective and acquire new practical tools and skills.*
- IF you have been for some time in the recovery process of addictions, working your program, going to meetings, only to hit a plateau where you have the impression of losing your joy and motivation, struggling with past issues or repeating the same patterns, but expecting different results, *this program will take your recovery to a new level, a true spiritual transformation.*
- IF you have never had a real chance to heal from past abuse, betrayals or losses, *this program restores dignity, hope, self-worth and innocence.*
- IF you have never done any introspective work and are struggling with relationships, life and life's circumstances, *this program will allow you to get a new understanding and perspective of yourself, your needs and your boundaries.*
- IF you are on a spiritual path but feel stuck in your spiritual and emotional growth, and are feeling lonely, numb, directionless and depressed, *this program will gently re-orient your thought and feeling process, allow you to reconnect and realign. It will help you get a higher vision of your self and life.*

THIS IS A HEALING AND TRANSFORMING PROGRAM

ISSUES ARE ADDRESSED ACCORDING TO INDIVIDUAL NEEDS

- Divorce/Separations and/or painful relationships
- Parenting, custody and co-parenting
- Grief and losses
- Self-esteem and self-worth
- Change of career
- Early retirement
- Life's purpose and one's Higher Mission
- Loss or lack of spirituality
- Belief and value systems

FAMILY OF ORIGIN ISSUES

Some of us have grown in obviously dysfunctional families that promote addictions, abuse, codependency, rigidity, control and perfectionism. Some of us were in families that looked very good and proper with no bonding or nurturing. Some of us were abandoned physically and/or emotionally. Some of us have been overprotected, smothered, and grew without a sense of self.

Whatever the issue, these family systems define our original imprints and will later determine our way of relating, being and behaving.

This program focuses on clearing the false imprints and belief systems that we carry about ourselves, others and life.

ADDICTIONS (if applicable)

Substance Addictions = alcohol, drugs, prescription drugs
Process Addictions = food, sex, work, gambling, compulsive shopping, computer addiction
Core Addictions = underlying all other addictions:

- Security Addiction—Not enough syndrome
- Power/control Addiction
- Sensation Addiction
- Addiction to Suffering

This program focuses on **CORE ADDICTIONS AND IMPRINTS** in order to realign the thinking, feeling and doing processes with the Value System of the Authentic Self. If substance addictions are diagnosed appropriate referrals are being made.

INNER JOURNEY
