Journey of the Universe: An Epic Story of Cosmic, Earth, and Human Transformation

Saturday, May 23, 2015 @ 4:00pm
SGI-USA Culture of Peace Resource Center, 606 Wilshire Blvd, Santa Monica, CA 90401

Journey of the Universe: An Epic Story of Cosmic, Earth, and Human Transformation is an EMMY Award-winning documentary that connects such big picture issues as the birth of the cosmos 14 billion years ago, the invisible frontiers of the human genome, and our current impact on Earth’s evolutionary dynamics. It provides a wondrous view of cosmic evolution as a process based on immense creativity, connection, and interdependence. Revealing the profound role human beings play in this intricate web of life, Journey of the Universe is a film designed to inspire a new and closer relationship with Earth in a period of growing environmental and social crisis. After the film screening, Loyola Marymount Professor Dr. Christopher Chapple will lead a conversation about the film titled Journey of the Universe and the Interior Journey.
