Cabral Institute Completes Board Appointments

The Amilcar Cabral Institute of Economic and Political Research is pleased to announce the appointment of four new members to its academic advisory board.

The appointees are: Dr. Reginald Cline-Cole (University of Birmingham); Dr. Mamadu Jao (INEP, Bissau); Dr. Walter Hawthorne (Michigan State University); and Dr. Peter Mendy (Rhode Island College).

Dr. Toby Green, Director of Institutional Relations, who finalized the appointments late last week, confirmed that the latest series of appointments would complete the institute's advisory board for the foreseeable future.

“Over the past year, the Institute set out to assemble the most complete and esteemed academic board possible in the field of Bissau-Guinean studies. We are privileged to have a world-class board such as this, and we will take this opportunity to advance our research capacity and increase opportunities for researchers around the world.”

The **Amilcar Cabral Institute of Economic and Political Research** is an independent think tank that promotes a wider, balanced and pragmatic view of the Republic of Guinea-Bissau internationally. The Institute aims to positively influence public policy in Guinea-Bissau for the equitable development of its economy and society. Its primary activity is the publication of research work, on a periodic basis and in association with a Partner Institution. The Institute also supports relevant events, such as academic conferences and guest lectures, throughout the world.
